SUMMARY

A passionate and detail-oriented frontend developer focused on building responsive and user-friendly web applications. Eager to join a dynamic team where I can grow my skills in modern frontend technologies like React.js and contribute to impactful projects.

SKILLS

- **Frontend** - HTML, CSS, JavaScript (ES6+), React, React Router, TailwindCSS, React Query (basic)
- **Backend** - Node.js (basic), Express.js (basic), MongoDB
- **Tools & Others** - Git & GitHub, Axios, Stripe Integration (basic), Framer Motion, GSAP (Basic)

PROJECTS

HOBBY HUB

[Live Site](#) | [Client Repo](#) | [Server Repo](#)

A creative community platform where users can share, join, and explore hobby

Features:

- **Interactive User Dashboard** – Users get a personalized dashboard to manage their profile, group activities, and interactions in one place.
- **Group Creation & Joining** – Any user can create a new study group or join existing ones. Each group acts as a separate workspace for collaborative learning.
- **Secure Authentication** – A reliable login system using JWT ensures user data is protected and access is managed appropriately.
- **Profile Management** – Users can update their personal info, hobbies, and preferences to better match with interest-based communities.

STUDY BOND

[Live Site](#) | [Client Repo](#) | [Server Repo](#)

Study Bond is a group study platform where users can create assignments, submit tasks, and collaborate within study groups.

Features:

- **Interactive User Dashboard** – Users get a personalized dashboard where they can manage their study groups, assignments, submissions, and see all recent activities in one place.
- **Group Creation & Joining** – Any user can create a new study group or join existing ones. Each group acts as a separate workspace for collaborative learning.
- **Peer Feedback & Grading** – Any users can view others' submissions and provide feedback or assign grades.
- **Responsive UI with Theme Toggle** – The app is fully responsive across devices and supports both dark and light modes, allowing users to switch themes as per their preference.

LANGUAGE

- **BANGLA** (Native)
- **ENGLISH** (Intermediate)
- **HINDI** (Proficient)
