Linkedin | GitHub | Portfolio

SUMMARY

Passionate frontend developer focused on building responsive, user-friendly web applications. I am eager to join a dynamic team to grow skills in modern frontend technologies like React.js and contribute to impactful projects.

SKILLS

- **Frontend** - HTML, CSS, JavaScript (ES6+), React, React Router, TailwindCSS, React Query
- **Backend** - Node.js, Express.js, MongoDB
- **Tools & Others** - Git & GitHub, Axios, Stripe Integration, Framer Motion

PROJECTS

TRIPS   Live Site | Client Repo | Server Repo

Explore & book tours with verified guides across Bangladesh

Features:

- **Smart Booking System** – Tourists can browse packages, view guide details, and confirm bookings seamlessly. Stripe integration ensures secure payments and booking tracking.
- **Role-Based Dashboards** – Admin, Tour Guide, and Tourist each get dedicated dashboards to manage packages, bookings, and assigned tours efficiently.
- **Tour Story & Guide Application** – Users can share travel experiences, read others' stories, and apply to become a certified tour guide from their profile.

HOBBY HUB   Live Site | Client Repo | Server Repo

Hobby-based community sharing and exploration platform

Features:

- **Interactive User Dashboard** – Users get a personalized dashboard to manage their profile, group activities, and interactions in one place.
- **Group Creation & Joining** – Any user can create a new study group or join existing ones. Each group acts as a separate workspace for collaborative learning.
- **Secure Authentication** – A reliable login system using JWT ensures user data is protected and access is managed appropriately.

STUDY BOND   Live Site | Client Repo | Server Repo

Group study app with assignments and task collaboration

Features:

- **Interactive User Dashboard** – Users get a personalized dashboard where they can manage their study groups, assignments, submissions, and see all recent activities in one place.
- **Group Creation & Joining** – Any user can create a new study group or join existing ones. Each group acts as a separate workspace for collaborative learning.
- **Peer Feedback & Grading** – Any users can view others' submissions and provide feedback or assign grades.

LANGUAGE

- **BANGLA** (Native)
- **ENGLISH** (Intermediate)
- **HINDI** (Proficient)
